

1) Install Sing-Box

Press Win + X and open the terminal with admin rights:

Then enter the command:

```
winget install sing-box
```

You can close the terminal after the installation is complete

2) Save the client config file to some folder

3) Create a new shortcut anywhere

Then paste this to the location of the item:

`C:\Windows\System32\cmd.exe /k sing-box run -c C:\path\to\file\filename.json`

`C:\path\to\file\filename.json` should be changed to real path to your config file

What item would you like to create a shortcut for?

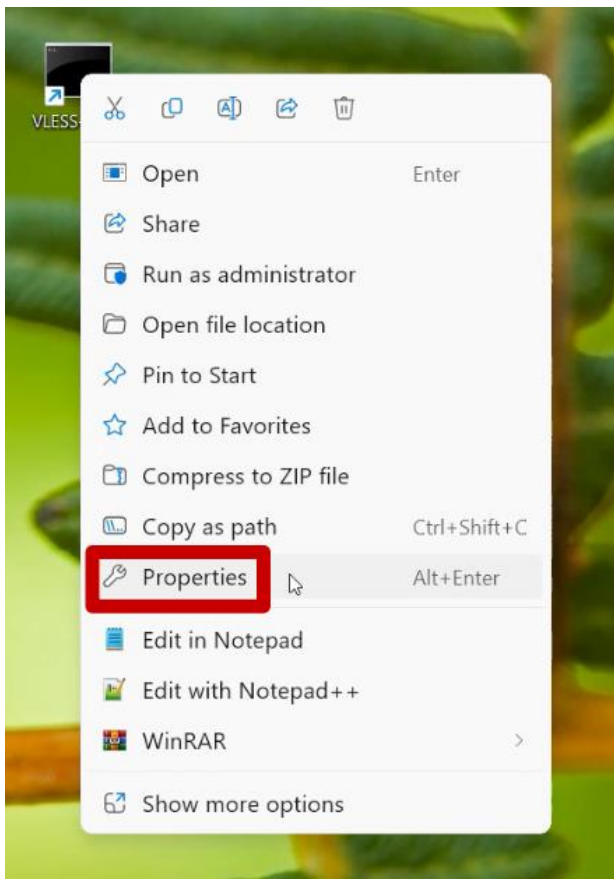

This wizard helps you to create shortcuts to local or network programs, files, folders, computers, or Internet addresses.

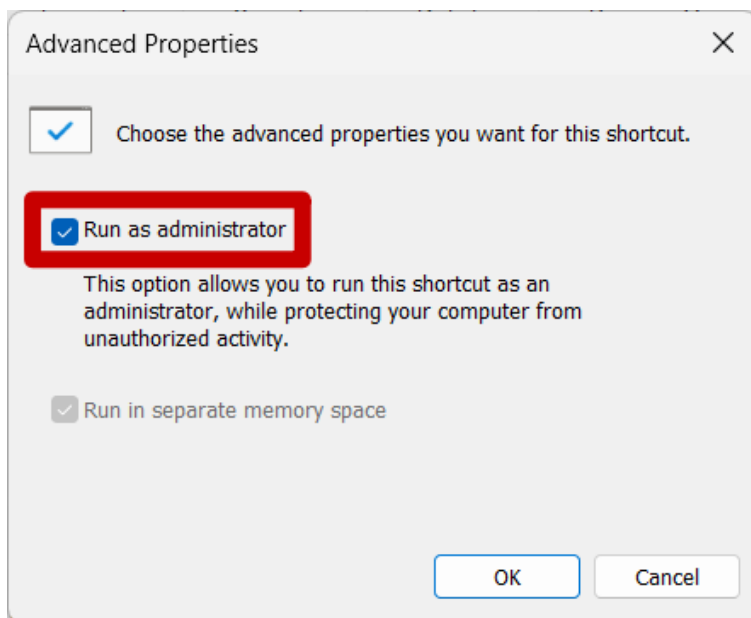

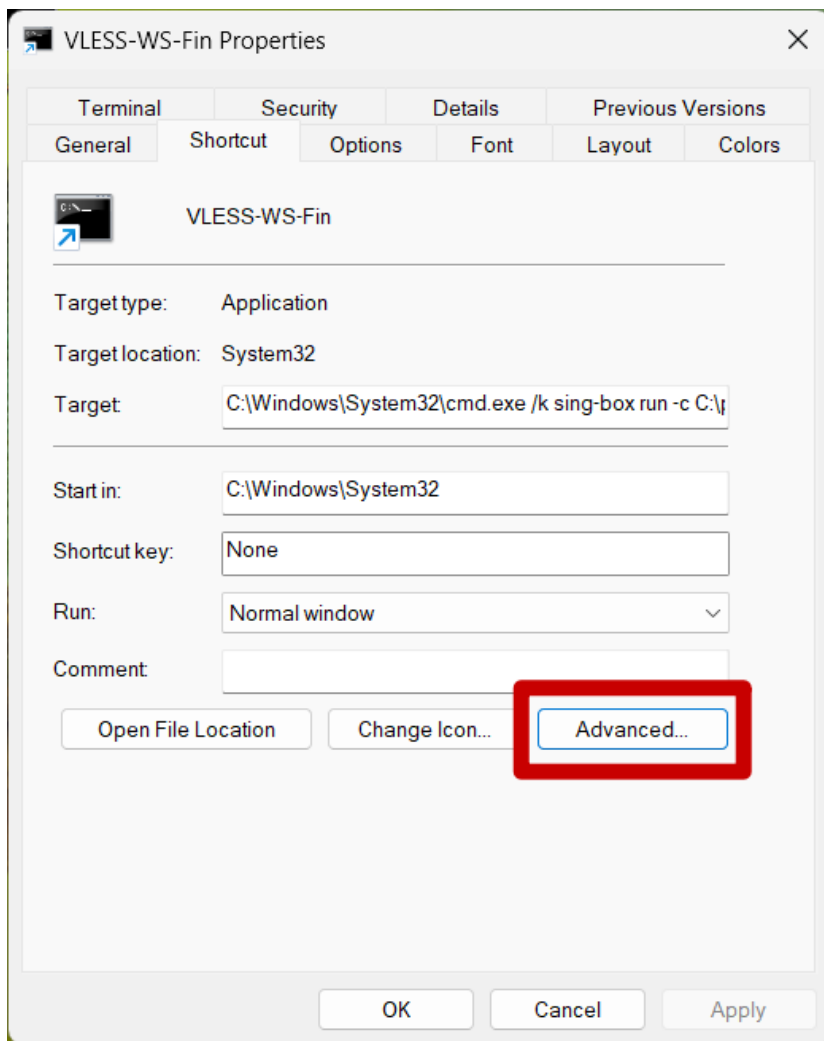

Type the location of the item:

Click Next to continue.

You can name the shortcut as you like

4) Change the settings of the shortcut to run it as admin

Then press OK

5) Click on the shortcut to connect to the server

Do not close the terminal window while connected to proxy

To disconnect, click on the terminal window and then press Ctrl + C
